GROWTH

Chaminade has always been growing and in 1968-69 it has grown more than ever. **The Aerie** is a testament to our growth — individually and collectively — at Chaminade Preparatory over this past year.

DEDICATION

The highest honor a Senior Class can bestow upon one person is to dedicate the yearbook to him. When we chose our "Man of the Year", we wanted to honor someone who has contributed greatly to Chaminade. We were thinking of someone who has shown constant dedication, an intense interest for the growth of the school and its standing in the community.

With great pride and admiration we chose **Coach David Galarneau** as the man who best exemplified these virtues. In his four years as athletic director of Chaminade, he has taken our teams from the depths of defeat to the heights of victory.

His success touched every sport. In three years as varsity basketball coach he led two teams to the C.I.F. playoffs. His 1967 baseball team and 1968 cross country squad also attained this goal. He whipped a group of wet nose buys into a devastating football team which had a phenominal first year record of five victories and only two defeats.

For these and countless other reasons, the 1969 AERIE is dedicated to you, Coach Galarneau, to show our respect for you and appreciation of all you have done for us.

ACTIVITIES

PEP CLUB

At other schools, the Pep Club is a group of cheer-leaders and perhaps a drill team. At Chaminade, though, the case is different. The Pep Club is composed of five cheer-leaders plus a group of die-hard, loyal Eagle fans that some people call the student body. These two facets coupled make the Pep Club the real driving force of the school.

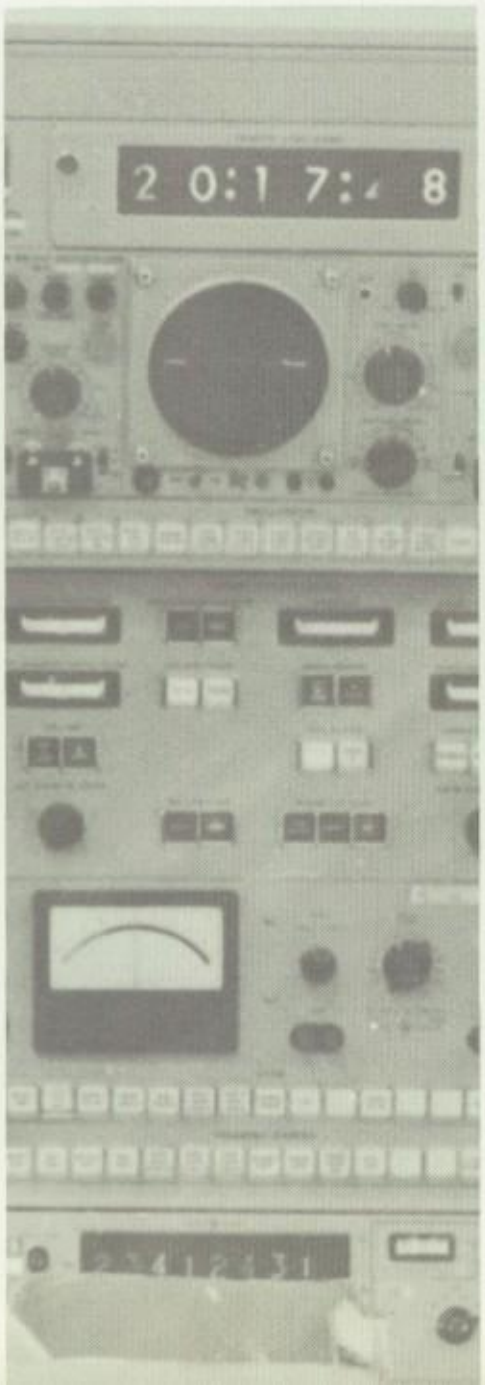
ROCKETRY CLUB

The Rocketry Club has existed for 10 years in the history of Chaminade but it has not been until recently that significant advance has been made. Up to the present date the work done by the members has been confined to solid propellant vehicles. Now a new field of liquid propellant rockets is opening. The plans have been drawn up for two such rockets and a prototype flight vehicle is being constructed at the present time.

The activities of the club have not been limited to the construction and testing of rockets alone but, as ot this year, has begun to build equipment to track the Apollo missions and weather satellites. The members of the club interested in electronics have made major breakthroughs in the sophistication of amateur rocket payloads and instramentation.

The rocketry club is one of the most active on campus and is constantly growing. The field is new and exciting and as our capability and sophistication increases we learn the principles that ultimately will carry man beyond the realm of his own galaxy.



FRONTLINE

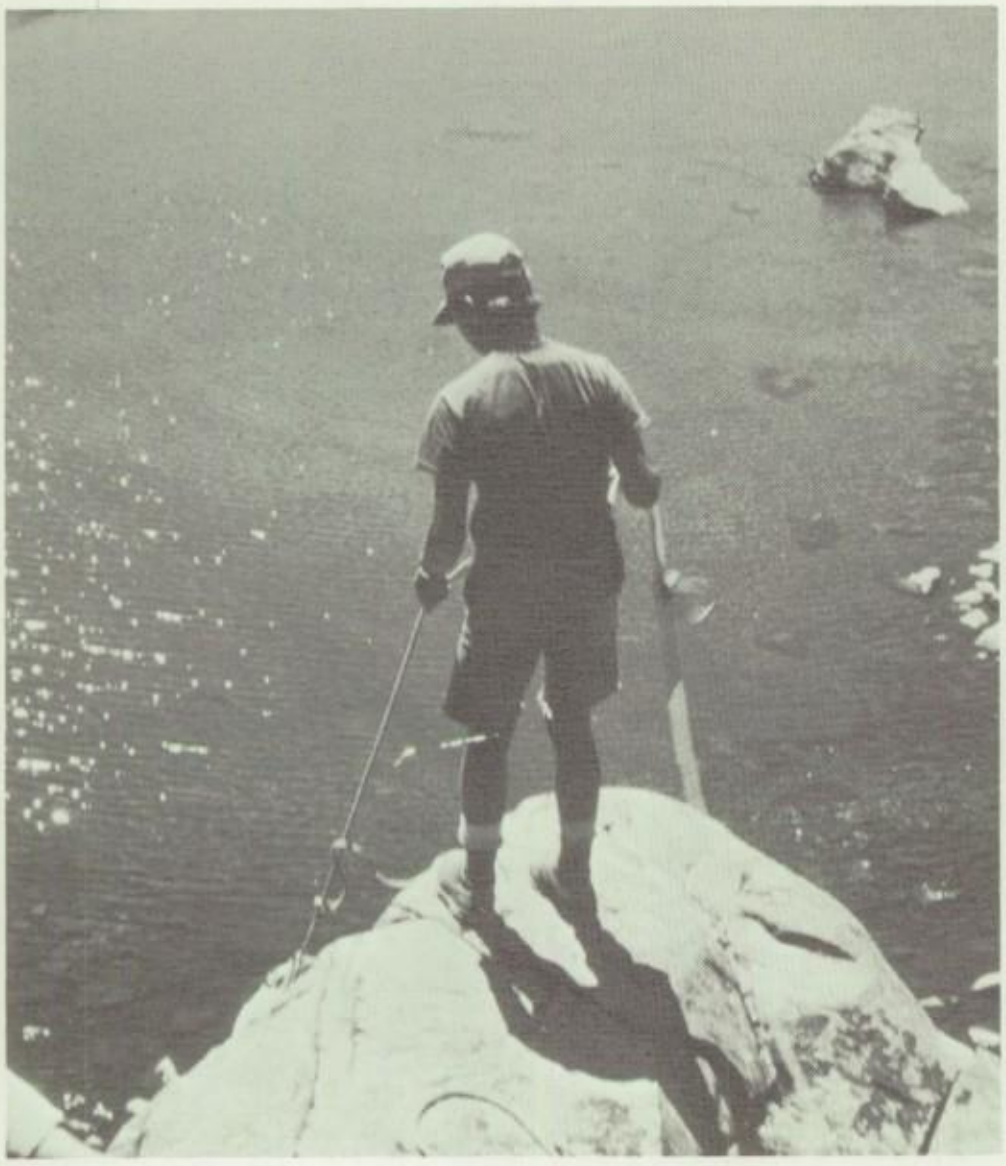
RADIO CLUB

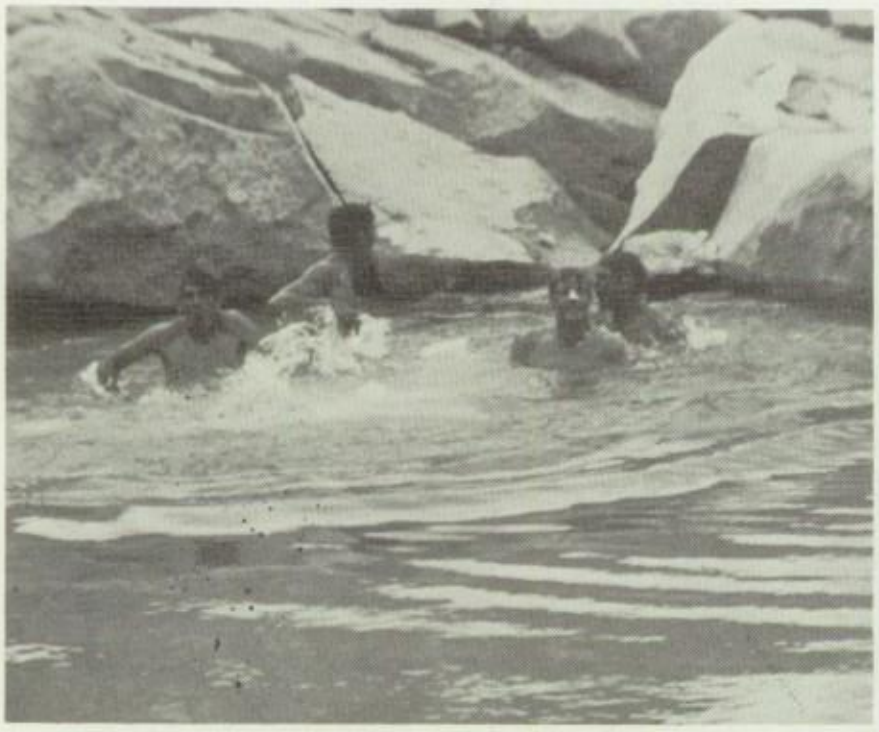
A new but ever growing club on campus is the Chaminade Radio League, WA6BYE. There are 15 active members, who have participated in a variety of "Ham" contests, winning honors for Chaminade. In addition the club plays a role in public service activities.

This is made possible by the excellent equipment the club owns; it has the highest antenna in the valley (115 ft. tall), a single side band.

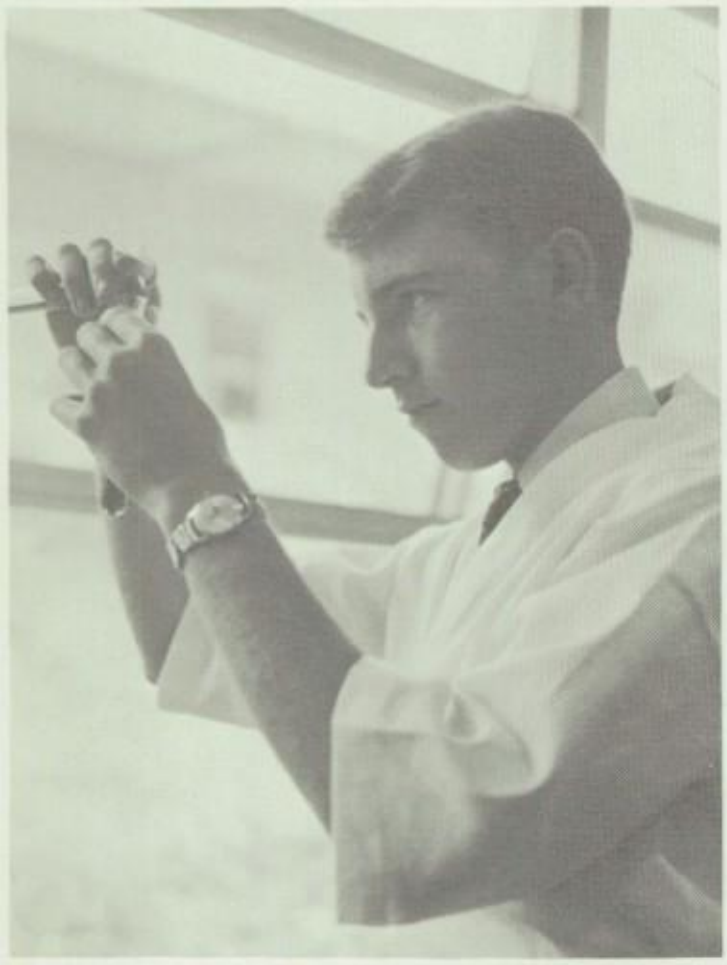
Looking to the future, the club is expanding its work from traditional amateur radio areas to space age fields. In conjunction with the rocketry club, the equipment was constructed and subsequently used to track Apollo 8. Also work is now reaching completion on facilities to receive pictures from weather satellites.

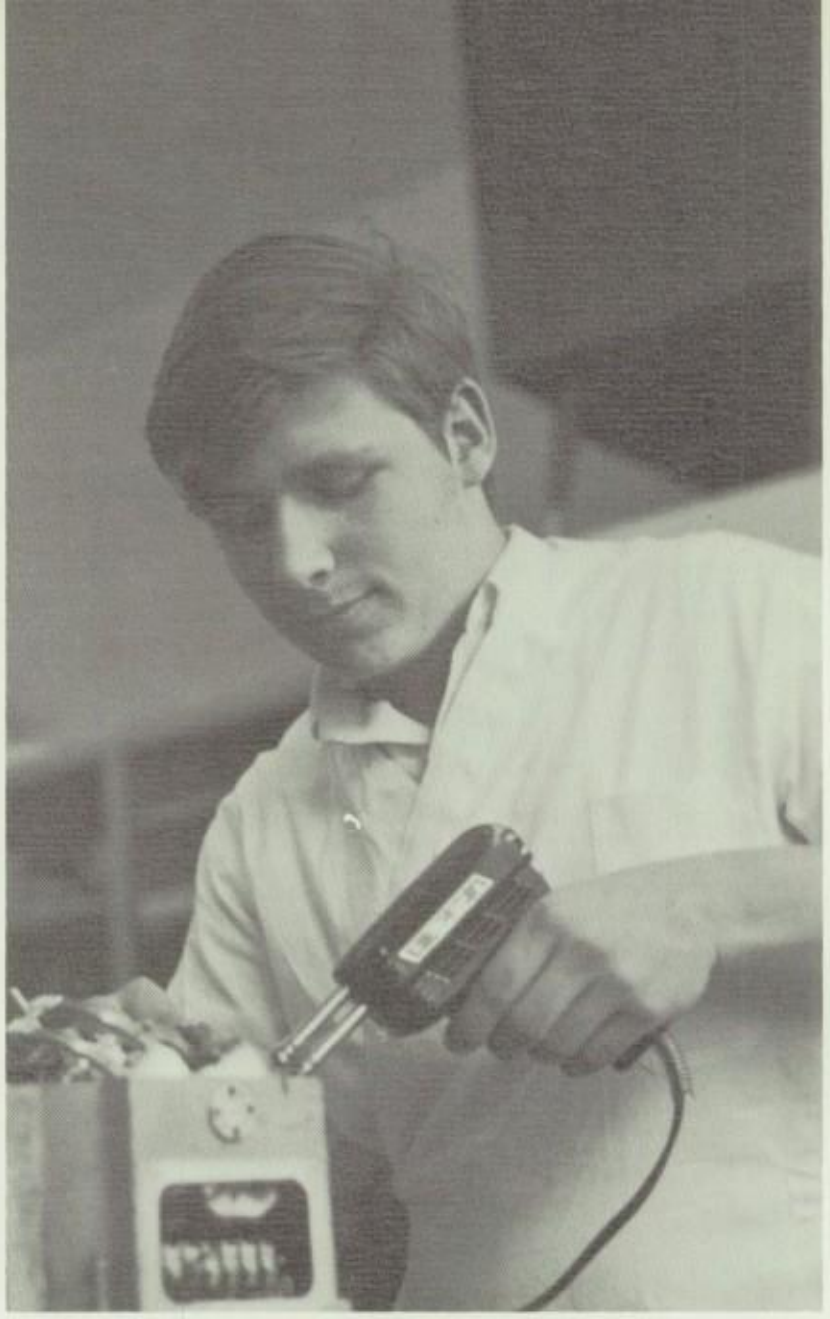
HIGH SIERRA CLUB

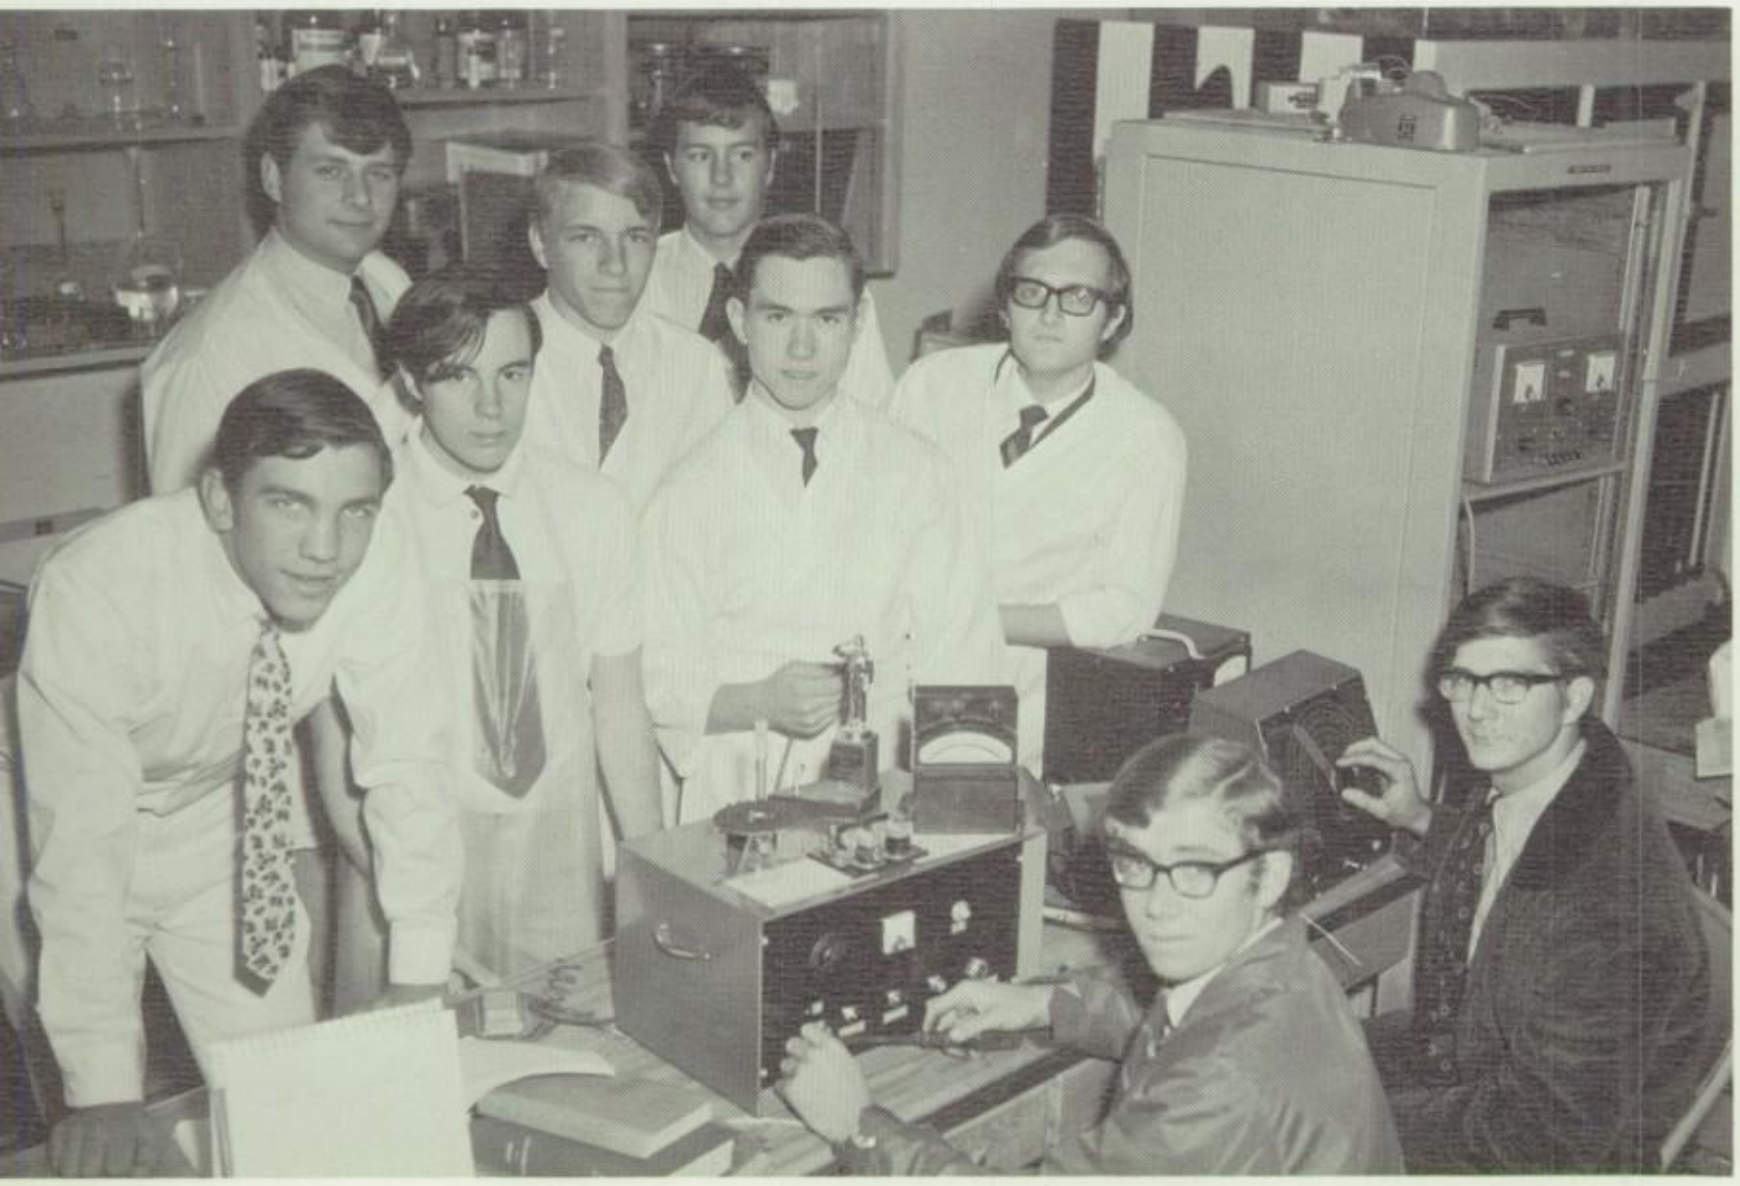


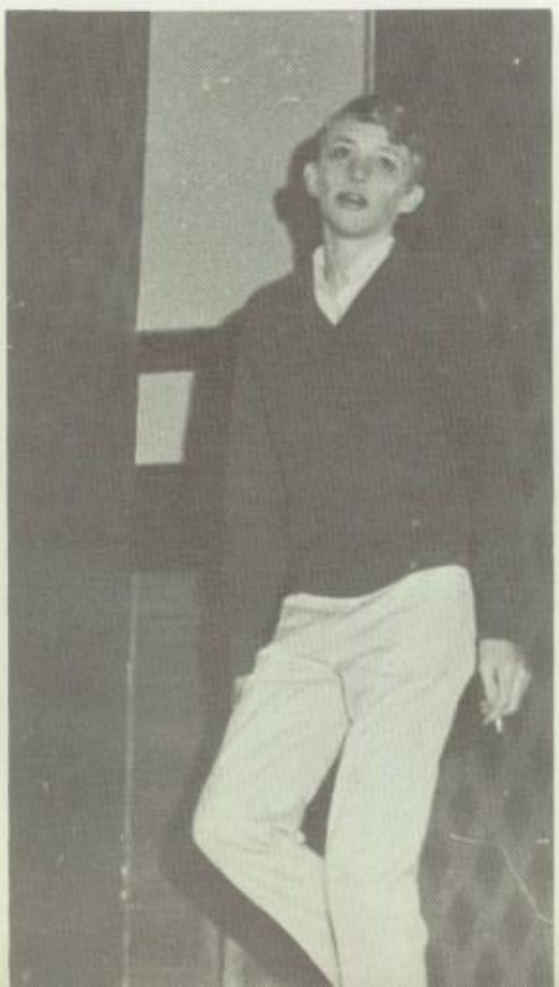


SCIENCE RESEARCH









DRAMA CLUB

The Drama Club took on a new aura of professionalism this year. Brother Wayne Moniz's determination to bring to Chaminade contemporary plays of both depth and quality resulted in the production of "An Evening of Comedy" and "The Odd Couple," both fresh from recent runs on the Broadway stage.

SPEECH CLUB

One of the more competitive non-athletic activities around school is the Forensics Club. Moderated by Bro. Mc Call for the past two years, the club membership has steadily grown and the success of the club has been self-evident. Consisting mainly of underclassmen, the Speech Club shows much promise for continued success in the future.

EAGLE STAFF

Coming back up against many problems the 1968-69 Eagle and Sporting News put out more issues than the combined total of the past two years.

With problems of keeping an active staff, and fighting a strong "underground" movement, the Eagle fought to show that it could meet the challenge.

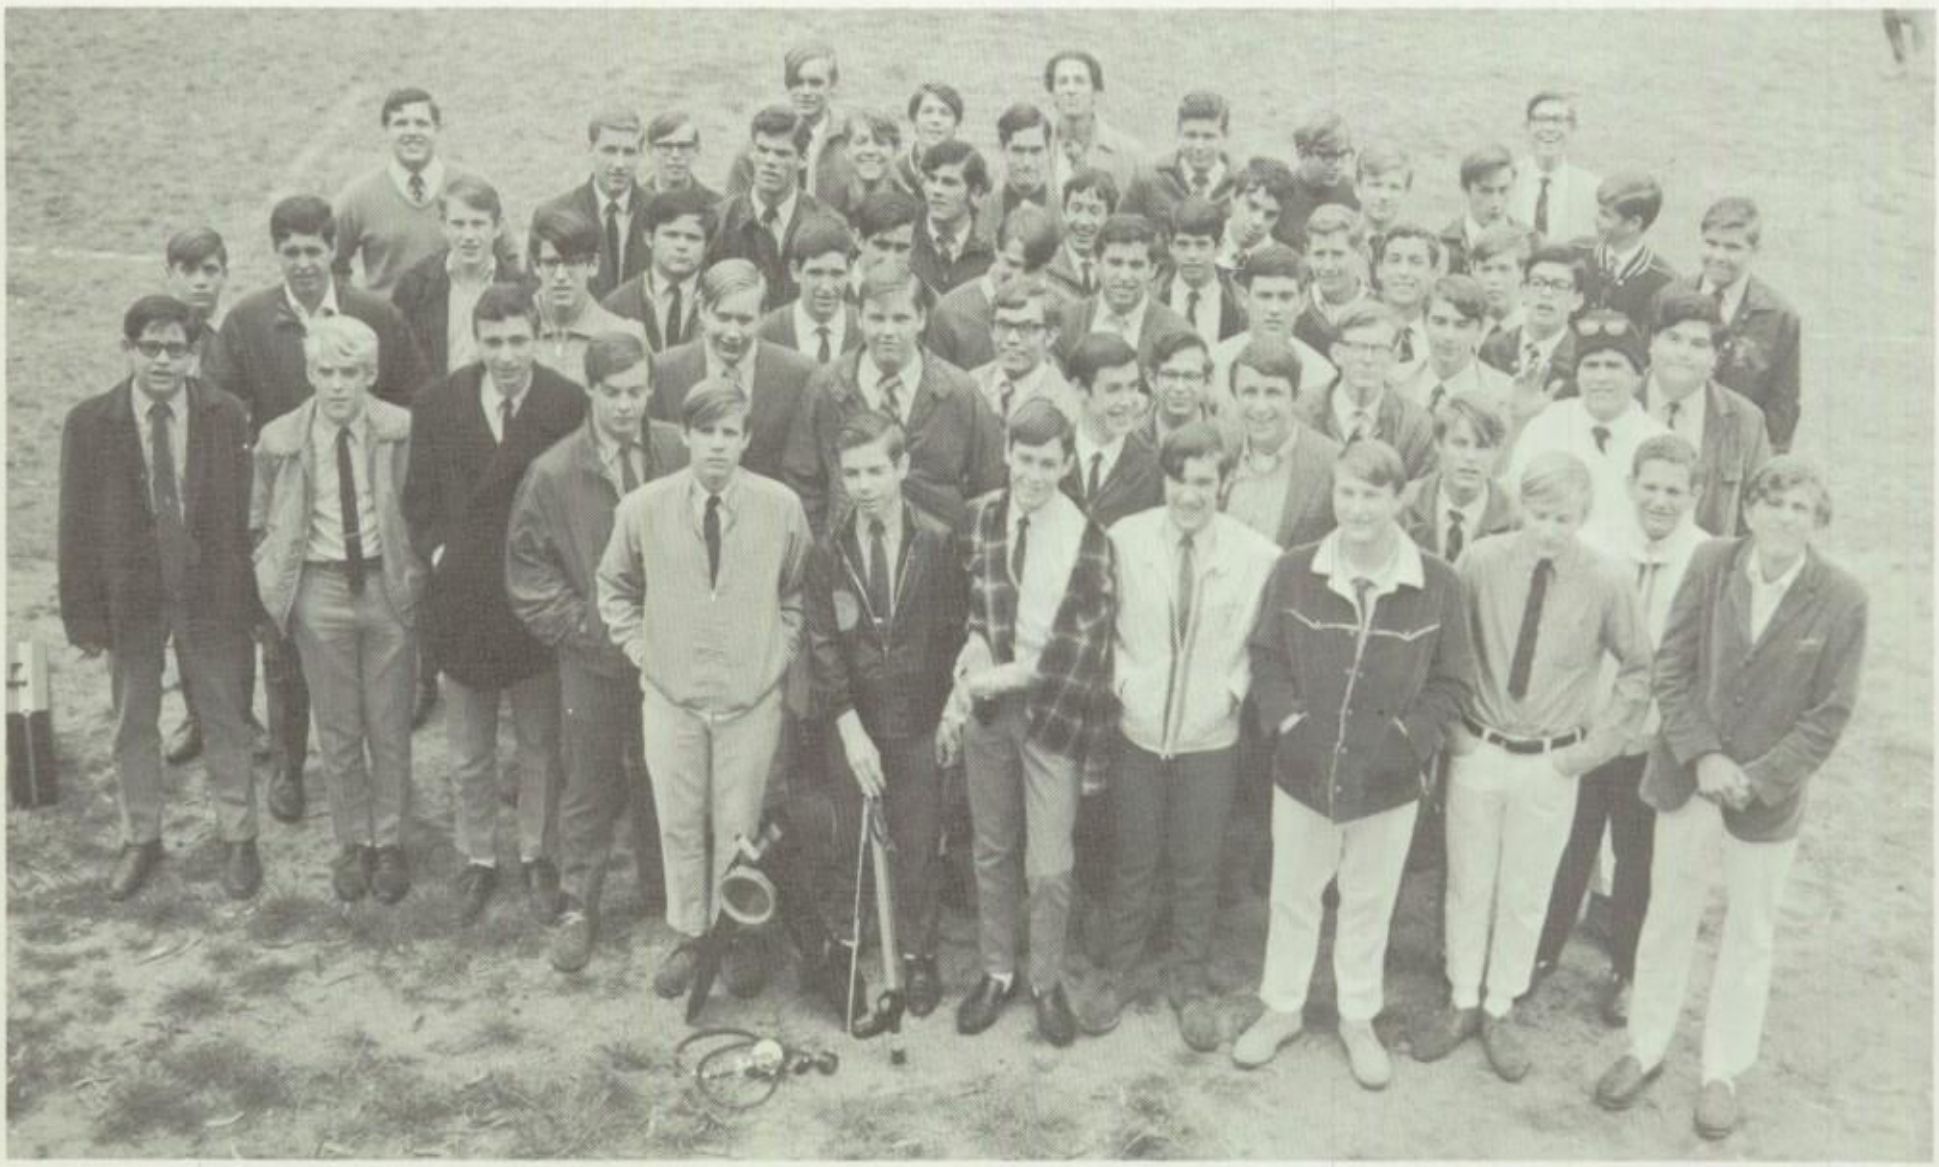
SECOND SEMESTER NEW STUDENTS



SCUBA CLUB

The undersea explorers club is dedicated to the study and exploration of the sea. In this organization members learned the techniques of scuba diving, underwater photography as well as marine research. Through film showings and other sources, they also probed the myths behind allegedly dangerous marine life beneath the sea's surface and studied the U.S. Navy's sea lab operations.

SPORTS

FOOTBALL 1968

The 1968 Football season was a successful one for the Eagles, posting a 5-2 record. The season was highlighted by hard fought victories, and hard fought defeats. The season proved to everyone that the Eagles were capable of handling themselves: even in their first year of competitive action. With a potent offense and defense the season was a successful one. Next year the Eagles are looking forward to taking over the Olympic League.

The Tennis Team enjoyed an almost perfect season. The only team to defeat the Eagles was El Segundo. The Eagles achieved this fine record through the consistent winning of both Mark Malneritch (6-0) and Dick Hargraves (5-1).

The Eagles look forward to another fine year with returning strength from sophomores Tom Barbera, Drew Jones, Kevin Prys, and Barry Strauss.

VARSITY BASKETBALL

For the second time in three years the Chaminade Varsity Basketball team, under the excellent directing of Coach Dave Galarneau, fought their way to the C.I.F. playoffs. Once again with a remarkable height disadvantage, the "Eagles" played aggressive, well-disciplined ball en route to the Freelance Championship.

A strong point of Drew's game was his serve.

This year Chaminade's Tennis Team celebrated its third birthday with a record of 6 wins, 3 losses and 1 tie as it competed against teams from Lennox, Notre Dame, Harvard, and Pater Noster. Lacking a home court has hampered the team over the three years, but this is more than compensated for by the drive and determination of the happy gang of Chaminade racketmen.

George and Dick were fierce competitors in practice.

VARSITY BASEBALL

Coach Ken Widner began the 1968 baseball season facing staggering odds. There were only four returning players from the '67 C.I.F. championship team. Three relatively experienced juniors and six sophs moved up from the J-V while two frosh completed the roster. Despite Coach Widner's effort and baseball savvy — not to mention team spunk, inexperience reared its head time and time again. One day it wiped out a comfortable lead, the next it failed to produce the needed clutch hit. When it was over the team had completed a record of five wins, eleven losses and one tie. From the start everyone thought it would be a building year — it was.

Team Members: W. Stack, C. Murry, B. McKenzie, Statistician, J. Linzer. Second Row: *Coach, Ken Widner, M. Venarde, M. Hutchison, P. Gilmartin, R. Taylor, C. Mack, T. Johnson.* Third Row: *M. Degnon, J. Wertzbarger, R. Gee, J. Ensign, T. Truxler, S. Dolan.*

Jim Ensign ended the season with .280 batting average.

Because the Chaminade Varsity had so few returning lettermen many underclassmen were moved up to the varsity with the result that the J-V struggled through the season with seven lettermen and thirteen inexperienced sophomores and freshmen. VARSITY TRACK

Chaminade's varsity cindermen turned in an impressive record-setting year, even though they didn't take all their meets. The spirited spikers set seven new school records. When they did lose, the meet was usually decided in the final events, so that the team was a thrill to follow.
